EXPERIENCE

For more than 20 years, Ashley has worked as a designer of leisure spaces in settings from beachfront to mountainside, and from urban jungles to actual jungles. Her experience covers a wide array of luxury residential projects (including an expedition yacht) and a variety of hospitality venues, inclusive of hotels, resorts, restaurants, and spas. Ashley's design concentration centers on the artform of curation and customization of product, which touches all aspects of interior and exterior objects, as well as guest or homeowner focused operational supplies. Ashley's experience with a wide range of aesthetics combined with her strong relationships with vendors and artisans worldwide provides her with a solid foundation to create extraordinary spaces. Ashley has a natural ability to foster genuine connections with her clients through clear communication, organization, and an upbeat attitude.
